**Child Health and Disability Prevention Program  
Billing Code Clarification**

The October 2005 CHDP bulletin announced new laboratory and vaccine benefits, including the flu mist vaccine (CHDP program Code 71). The vaccine's dosage schedule is one dose annually for children 5 years through 18 years, 11 months, and for individuals receiving a CHDP health assessment who have household members with high risk factors.

To further clarify, this vaccine is reimbursable as defined, except for children 5 years through 8 years, 11 months who have never received an influenza immunization. These children should receive two doses, with an interval of 42 days between doses.

This benefit is effective for dates of service on or after October 1, 2005.

*The updated information is reflected on manual replacement page rates max chdp 3.*
